

# AUSTRALIAN MADE INSULATED BINS

## E947

Product Code

Capacity:	<b>250 L</b>
External Dimensions:	<b>1260*690*695mm</b>
Internal Dimensions:	<b>1055*580*455mm</b>
Other:	<b>Weight 43kg, Hinged or Lift Off Lid options available</b>

## E1191

Product Code

Capacity:	<b>500 L</b>
External Dimensions:	<b>1170*1140*820mm</b>
Internal Dimensions:	<b>1025*1000*560mm</b>
Other:	<b>Weight 70kg</b>

## E1192

Product Code

Capacity:	<b>1000 L Upright</b>
External Dimensions:	<b>1170*1140*1350mm</b>
Internal Dimensions:	<b>1075*1040*1090mm</b>
Other:	<b>Weight 104kg</b>

## E1206

Product Code

Capacity:	<b>1000 L Squat</b>
External Dimensions:	<b>1475*1170*1000mm</b>
Internal Dimensions:	<b>1340*1025*740mm</b>
Other:	<b>Weight 107kg</b>

# AUSTRALIAN MADE INSULATED BINS

## E1224

Product Code

Capacity:	1700 L
External Dimensions:	2250*1140*1060mm
Internal Dimensions:	2040*1010*805mm
Other:	Weight 145kg

## FEATURES OF INSULATED BINS

Made from High Density Food Grade Polyethylene and filled with high density polyurethane foam to ensure best possible thermal insulation capability.

- **SEALS** - Sealed with food grade neoprene, ensuring maximum insulation and protection for your valuable product. This effective seal also makes the bin suitable for use during air transport.
- **LATCHES** - Quick access to your bin is vital. Handle systems provide an easy and efficient means of getting to your product while firm closure ensures an effective seal is maintained. The bins handles are also concealed for protection against accidental opening.
- **DRAINS** - Emptying the bin of excess water is as easy as removing or opening the plug. Draining outlets also limit unnecessary handling.
- **FORK LIFT** - Four way ready access by forklift and pallet truck.
